

Little Sprouts Early Childhood Center

2024-25 Programming

Our Preschool programs are thoughtfully designed to nurture the unique cognitive, physical and social-emotional development of little learners by utilizing a child-centered, play-based curriculum—Always guided by the unique needs, interests and abilities of the children, and by the wonders of the natural world. The children experience a daily balance of indoor and outdoor learning experiences in all types of weather. All children will grow together as leaders, problem-solvers, risk-takers and care-takers in a supportive learning community.
