Our Tuition-Based  PRESCHOOL Programs are designed to be a natural extension of our Family Programs in both philosophy and learning environment. We maintain a Half-Day model to honor little learners and their families by offering a schedule that supports a school/home balance filled with play-based learning, emotional support, and routines that foster confidence, curiosity, and connection. Experiences in our indoor and outdoor spaces support the cognitive, physical, and social-emotional development of Preschoolers as they grow. Invitations to explore are guided by the needs, interests, and abilities of each child, and by the wonders of the natural world.

Each class serves a maximum of 15 Little Sprouts supported by 2 Teachers and a daily Parent Volunteer.
